LOMOND, ALBERTA, OCT. 10, 1919

NOTES

Far beyond the expectation of the Empire and the world, Canada fought and strove and paid gallantly for five years. Indeed it may be doubted if any native Canadian witnessed the notable effort of the Dominion without amazement. The true spirit of the people was not understood until the guns began to speak in Belgium.

It rose, month by month, to greater and still greater heights. The double climax came in the autumn of 1918 when the Canadian Corps marched from Cambrai to Mons, and when the nation subscribed \$610,000,000 for Victory Bonds.

In war Canada found herself. The name "Canada" is respected the world over; not only in nations allied with the British Empire in the defence of liberty, but in Germany itself.

The fighting is over. The great task of dearticulating the organization built by four years of ardent effort is almost complete. The work of maintaining the army until it is fully repatriated, and of fulfilling completely the national obligations to the soldiers has added much to Canadian war expenditure.

For that reason there is instant need of a new Victory Loan. The patriotic people whose ardor and energy brought Canada into the sunlight are asked to keep the Dominion there by buying Bonds. The honor of the nation is involved in the success of the Loan. The people who supported the soldiers constantly while they were in Flanders will not fail in one particular to continue that support until the men are re-established in profitable civilian occupations.

Considering the achievements of this proud people, there is reason for the belief that the success of this latest Victory Loan will be instant and overwhelming. But all citizens must have a part in it. It is not a task to be half-done by the whole people, or wholly done by half the people. Let every citizen subscribe!

RETURNED MAN HAS A STRONG COME-BACK

Lomond, Oct. 9th., 1919.

Editor, THE LOMOND PRESS, —

I have read with deepest interest the editorial in your issue of Friday, Oct. 3rd, which deals with the opinions expressed by certain of the female sex regarding the matrimonial qualities of the returned man.

I am glad to say that there are very few of our Canadian girls who hold such opinions. Possibly some of these girls do not yet fully realize that the

freedom and liberty that they now enjoy was only made possible by the boys who went "over there" and helped stop the mad onslaught of the Hun. Probably they did little or nothing themselves in the fight for liberty, therefor would prefer to marry someone like themselves, commonly known as a "slacker."

When we know of the crimes and outrages that the Boche subjected the women in the occupied parts of France and Belgium too, I am at a loss to know how some girls have the audacity to refer to the men who went over to protect them from any such horrors as "idlers". I should think if the girls appreciated the sacrifices of these men, they would help them in every way possible to get re-established into civil life again.

The Old Country girls, as evidenced by a large number of them marrying our maimed and blinded heroes, hold no such opinions. Next year we can expect a large exodus of girls from the Old Country to Canada, and do you think these girls will turn down the returned man? Well, I should say not!

Most girls, I am afraid, when the right man comes along, even if he be a returned man, will marry him in spite of all his faults.

"Fairplay."

o o o

The Village authorities are not asking too much when they request you to burn the weeds and remove the rubbish from your premises. We can well afford to cultivate a little civic pride.

o o o

The Commerce Commission is bringing out some interesting sidelights on the art of merchandising and it is bound to have a material effect on future business. Apparently our demand for style is responsible for a good deal of the high cost of living.

The Lomond Realty Co.

H. E. ELVES - Joint Managers - L. M. SWAIN

WHO GETS YOUR BUSINESS Why?

DO you know values? No! With the present state of the textile market nobody, except he be right in the business, can pass fair judgment on values offered. Everybody knows that good quality merchandise is scarce, and that every mill and factory making clothing of any kind in Canada today can sell their entire output for export at high prices. Why, then, should you expect them to offer bargains to any Canadian buyer, regardless of the size of his order? Merchants every place must pay the going price for goods.

There is a difference in the price of goods at different places. The merchant who keeps bought up in advance and has the least operating expenses can certainly sell for less.

We are here to show you the goods, not the pictures of them. We expect you to buy only as it suits your convenience. We have extra special prices now on Boys' Suits and Overcoats. See them if the boy is going to need clothes soon, as our present stock will soon be sold and that will finish us in the boys' clothing business.

Don't fail to see our All-Wool Underwear and Sweaters for men.

The Expenditure of \$610,000,000

**How the last
Victory Loan
was spent**

**For
Demobilization**

**For Trade
Extension**

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000 for paying them, feeding them, bringing them home, separation allowances to their dependents, maintenance of medical services and vocational training schools

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers' gratuities

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster

+ + + + +

Other disbursements were not strictly speaking expenditures, but National Re-investments

To Great Britain for example.

\$173,500,000 was loaned for the purchase of our wheat and cereals

\$9,000,000 for our fish

\$30,000,000 for other Foodstuffs

\$2,900,000 for Canadian built ships

\$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs, raw material and manufactured products

The Re-investments will be paid back to Canada in due time, with interest

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans

As far as money is concerned, 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—*Get ready to buy.*
